

I check the contents of the box about twice a year, usually at the end of the semester. I figure out how many comics have been taken, I add in some new comics I have collected since the last count, and I figure out the new total number of comics.

This chart lists the total comics in the box each semester; the number of comics taken each semester; and the number of comics added each semester (the big drop is because it includes the 299 comics when the box was started).

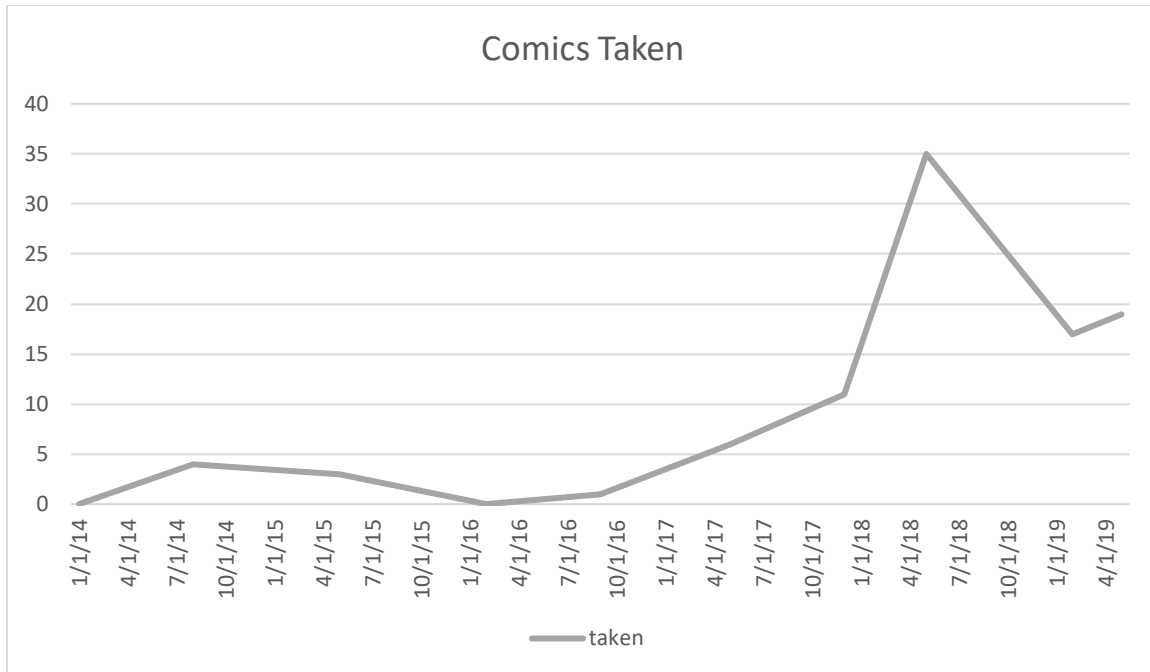

Note: Missing data for the winters of 2015 and 2017, which were updates 3 and 6. They were written in ink that faded away over the years and was no longer legible.

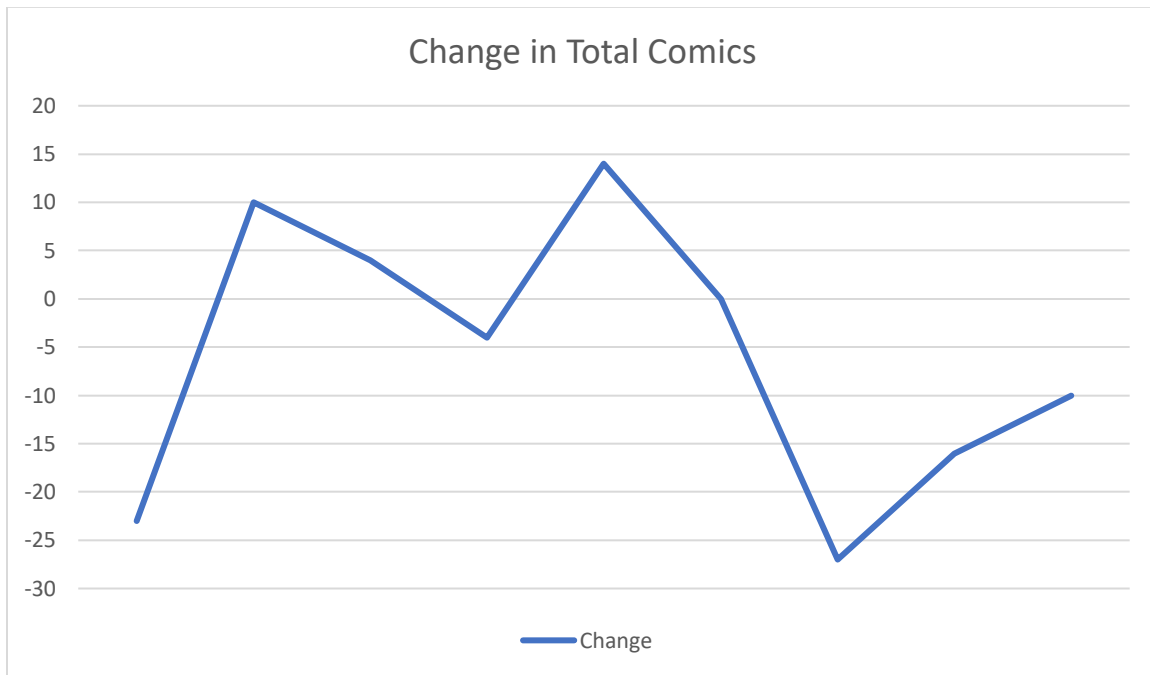

Total comics per semester.

Comics added per semester (not counting the initial 299).

Comics taken per semester.

Change in total comics per semester.
